Siskiyou County Board of Supervisors  
P. O. Box 338  
Yreka, CA 96097

Honorable Board,

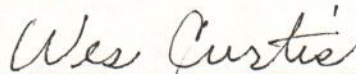

Our volunteer ambulance service has been in continuous operation since 1960 in this area. Our service area has been defined as from Horsecreek, down Highway #96, Scott Bar area, Hamburg, Seiad, Happy Camp, Clear Creek, Somes Bar and up the Salmon River approximately eight miles.

We are writing in support of forming exclusive operating areas within Siskiyou County for all ambulance services. We urge the County to go forward and request grant monies through Northern California Medical Services, Inc. to get such a program started. We understand that there are provisions in the Health and Safety Code that allow for such a program in our county which includes those services that have been in existence prior to 1981.

We are asking the boards support in this matter to ensure continued service with some protection for us, and the other ambulance services within Siskiyou County.

Thank you for your consideration of this matter.

Sincerely,

---

Wesley B. Curtis,  
President
